LOCAL BREVITIES.

Don't forget the mass meeting at the courthouse Saturday.

A part of this week's editorial will be found on the first page.

There's nothing half so neat and tidy as one of Collins' rigs.

Ice cream July 21 in the basement of the Presbyterian church at 5 p. m.

One-and-a-quarter inches of rain in forty minutes is the record for Tuesday morning.

We understand Mr. Bonanza is about to dynamite for railroads. The drought must be broken, though the heavens fall.

There is no lack of rain now, and better corn weather could not be desired. With an excellent crop of oats, stock ought not to suffer the coming winter.

The Christian Endeavor Society will serve ice cream next Friday evening in the basement of the Presbyterian church. Cream ready at five o'clock P. M.

Judge Russell, who has been under the weather for some time past, we hope to see him on our streets once more.

W. H. Brown has taken the agency for the *Chronicle* and *Post-Dispatch* at Ironton. He will deliver those papers promptly on their arrival each evening. See him and order one.

The berry crop has been remarkably good this year. There was an abundance of strawberries, followed by a good crop of raspberries, and the blackberry crop has never been better.

Born—To Mr. and Mrs. D. F. Reese, Farmington, Mo., on Monday of last week, a son. The Register extends its heartiest congratulations, and trusts that the avenues of life now opening before the young Bryan may lead him to prosperity, success and fame.

Our young friend, August Winkler, Esq., came up last week, packed up his household goods, and removed with his family to Poplar Bluff. While the Register wishes him success, and believes he will attain it in the city on the Black, it is hoped that Ironton has by no means seen the last of him and his.

Judges Hill, Moyer and Hampton were in Ironton Monday, an adjourned term of court having been called for that date, the chief purpose of which was the assessment of railroad property in Iron county. But, as the State Board of Equalization had not completed its work, after allowing a few bills of minor importance, the court adjourned to the 24th day of August.

The gentlemanly agent of the Northwestern Yeast Company was here last week distributing free samples of the celebrated Yeast Foam. No other article in the United States is so well and favorably known as Yeast Foam. Other kinds of yeast may be good some of the time, but Yeast Foam is good all the time. Try the samples according to directions, and you will be pleased with the result.

Subjects and texts for next Sabbath services at the Presbyterian church: For the morning service, subject, "The sin against the Holy Spirit." Text, Matt. 12:31-32. For evening service, The Christian Endeavor Echo Meeting. Services at Graniteville, 8 p. m. Subject, "Love." Text, John 15:12. Every one not attending services elsewhere will receive a cordial welcome here. GEO. H. DUTY, Pastor.

Em. Crain and Susan Johnson, both colored, had another row on Zion's Hill Tuesday afternoon. The whole neighborhood was filled with the clangor of their tongues, and hurrying stones darkened the atmosphere. Unfortunately neither one suffered bodily injury. If laws enacted for the maintenance of decency and good order go for anything, we suggest that the officers ought to take a hand in these frequently recurring disturbances. A few days in jail would serve as a blood-cooler.

Last Saturday evening about six o'clock a heavy rain and thunder-storm deluged the earth hereabouts and shook the solid rocks and hills. No damage resulted in the Valley, but at M. Myracle's farm, seven miles southeast of here, the lightning was not so innocent in its playfulness. It struck Mr. M.'s barn, passing through the roof and now without damage to the hay. On the ground floor a man was engaged in feeding and grooming his two horses that had been working in the threshing-machine that day. The thunderbolt knocked man and horses senseless. Happily no fatality resulted, though Mr. Inman did not fully recover for several hours.

Business is again looking up in Commissioner Fox's Court. Some ten days ago John Zimmerman was up for committing burglary on the post-office at Libertyville, Mo. He waived examination and was bound over to the United States District Court in the sum of twenty-five hundred dollars. On July 14th Clarence Robinson was discharged by the Commissioner, and on July 21st Charles Moore was told by his honor to go and sin no more.

H. Davis, City Assessor, turned over his list to the Council last week. We take the following figures therefrom: Real Estate, \$164,235; Personal Property, \$120,297. The total taxes assessed for this year, including polls, amount to \$828.67. This, with the licenses, will run the city government nicely during the year, there being in the treasury over \$300 at this time, and the city not owing a dollar. A marked contrast to the condition of things a couple of years since.

In a locality noted for the number and variety of its private rigs and turnouts, it behooves the lively man who would thrive to be wide-awake and untiring in his efforts to please. H. M. Collins is peculiarly fitted for the business in this favored and exacting community. He has made it his design to continually improve and extend his work, until now his stable is filled with as fine rigs and good horses as can be found in any city of 10,000 inhabitants in the State.

Yesterday morning a deaf and dumb printer attempted to get off, or fell from, a moving train at Hogans, and his right hand was caught under the wheels. All the fingers were crushed. He was sent here by the first train, and Drs. Marshall and Lowry amputated the first and second fingers at the second joint; the others were lacerated and torn, requiring stitching from end to end, but the doctors hope to save them. His name is Frank J. Merath, and he hails from Memphis, Tenn., where he has a sister. The county is taking care of him.

Last Saturday morning No. 66 ran over a woman at Jordan. The engineer at once notified the railroad authorities, and Mr. Hardy telegraphed Coroner Farrar, who, the same day, held an inquest over the remains of the unfortunate. The following facts developed: The deceased was Lillie Chilton, late a deaf and dumb inmate of the poor farm, from which she had fled a few days previous. She had walked down the road Friday, and it is presumed sat down on the track and fell asleep. The jury exonerated the railroad people from blame.

The rainfall of the Valley for the month of April of the present year was 4.65 inches; for May, 3.50 inches; for June, 6.93 inches; for July, up to July 21st, 5.64 inches. In 1895 the rainfall of the Valley was, in the month of April, 1.82 inches; May, .97 of an inch; June, 5.37 inches; July, 5.37 inches. It will be seen that in this section there were in the months of April, May, June and July, in the year 1895, only 13.61 inches of rainfall in the Valley, while for the same period this year there has been a rainfall of 26.72 in., making the excess for this year 13.11 inches.

Mr. J. D. Elgan has a dog named Tig that may lay claim to the term valuable. Some time ago Mr. Elgan was awakened by Tig's furious barking. He arose, went to the door, and found his dog very much enraged at some object near the step. Urged by his master the Tig took hold of it. It proved to be a copperhead snake. The dog was badly bitten before he killed the snake, and almost immediately began to swell and give other evidence that the poison had taken effect. Mr. E. soaked the wounds with coal oil and the animal recovered. From him we learned for the first time, that coal oil is a remedy for snake-bite. If this should prove to be correct, it will almost destroy the fishing industry. Perhaps, though, what will cure a dog will not help a man, so it may be as well to carry the usual snake-bite remedy when you go fishing, until coal oil can be procured. Satisfactory evidence of its value in such cases.

On last Tuesday evening, July 7th at 8 o'clock at the home of the bride's mother, on Spring Street, in this place, Mr. E. W. FARRAR, of Kingsland, Ark., and Miss MAMIE LANGDON were united in marriage in the presence of the immediate family and a few friends, Rev. W. H. Doss performing the ceremony in his usual happy and impressive manner. Mr. Farrar is a prominent lumber dealer of Kingsland, and does quite an extensive business. Miss Langdon is well known and admired by all for her many amiable qualities, and Mr. Farrar is to be congratulated upon the prize he has won. Mr. and Mrs. Farrar will leave for their home to-day. The Standard joins with a host of other friends in extending congratulations and best wishes for a long and happy life journey together. —McMinnville (Tenn.) Standard.

The Register adds its congratulations and good wishes to the happy couple. May friend Miles and his bride live long to enjoy all the good things of life.

On Friday of last week the Populists of 18th Congressional District held their convention here for the purpose of nominating a Congressman and sending a delegate to the Populist National Convention now assembled at St. Louis. The Convention was not large, and the delegates were rather earnest than enthusiastic. There was a sentiment expressed that all parties should get together that were opposing the domination of Wall Street, but in so doing the Populist organization should be preserved. Mr. Dines of St. Francis county was elected delegate and instructed to stand by the Omaha platform, and to vote for a Populist for President; but, after some discussion, it was understood that he was to act in harmony with the Silver League and take such action as would bring all the reform forces together in opposition to the Gold Trust. Mr. Wheeler of Texas county was elected alternate. The Honorable George Bond, who was a candidate for Register of Lands on the same ticket with Nick Ford in 1884, was nominated for Congress. It is useless to belittle the Populist. We think him impractical in many things, but he is generally honest and loyal to his convictions.

Personal.

Miss Ida Vollath of Farmington returned home Tuesday, after several days' visit to Miss Georgia Muffley. Geo. Wakarusa, the popular Broadway merchant, accompanied by his wife and two daughters, spent Sunday in the Valley, the guests of W. A. Paul and family. They were delighted with the surrounding of the Valley. Mrs. Manie Reese is in Farmington visiting her sister, Mrs. D. F. Reese. She will probably return this week. Mrs. Wm. Boswell, Marble Creek, was in Ironton Monday, visiting her daughter, Mrs. J. T. Ake.

Des Arc Items.

E. W. Graves left to-day for Springfield, Mo., to attend the Republican Convention. He is head and foot for Wallbridge.

J. M. Morris and family will start for Virginia in two weeks.

We had a heavy rain here Saturday. The ground is wet for ten inches. Corn was suffering.

We had quite a little wreck here Thursday morning about five o'clock. First 87 fast freight, with a car-load of horses next to the caboose, was standing on the main track waiting to meet two north-bound trains. Second 87 came round the curve at the rate of 25 miles an hour and ran into the first 87, smashing the caboose and car of horses, killing 11 horses and wounding the remainder—9 head. The railroad company took charge of the latter and shipped them to Little Rock.

Bob Palmer and G. Whitworth of Ironton were down Sunday.

Mrs. Laura Dunn and sister, Virtie Jordan, are visiting their parents of this place.

Quite a crowd of young people attended the barbecue at Annapolis. They reported quite a good time.

Walter Strother was in town Sunday to see his girl.

Mrs. Will Lett of Sabula was also seen on our streets Sunday. ISAAC.

Annapolis News.

Ed. Register.—The barbecue at Jackson's drew a large crowd, but we understand that financially it was not a great success.

Several fights are reported at the barbecue.

Misses Blanche, Maude, Olie and Alice Fitz and Miss Florence Wallace, of Des Arc, and Misses Stella, Etta and May Collins and Albert Collins, of Sabula, remained over until to-day from the barbecue. They went to their several homes to-day.

John Graham has a very sore hand, caused by sticking a nail in it while shoeing a horse.

George Hempton has moved to Annapolis.

Jas. Smiley has it in for the section men now. The regular station mile-board is near Mr. Smiley's house, but in going home from town down the railroad he turned off just before he got to the mile-board. A few days ago the section men put up another sign-board just above where Mr. Smiley leaves the railroad, and Saturday night, when Mr. S. was on his way home he observed the new board for the first time. Thinking that he had passed the usual place of turning off, he went back up the road as far as he thought he had passed his road, and turned off down the bank and over in to a field. Mr. S. tells the story on himself; so I suppose it must be true.

The young girl who was killed at Jordan the other night is said to have been the deaf mute who lay around this neighborhood a while last year.

C. D. Alexander is at home with a wounded head which he received while on duty, caused by a fall. Mr. A. said that he was knocked insensible for some time. Hope he will soon be able for duty again.

Clarence McGlothlin is at home on leave of absence.

Lucian Hackworth was among old friends on our streets Saturday.

Clarence Whitworth of Ironton was in town Saturday.

Ed. Bollinger of Sabula attended the picnic at Jackson's Grove Saturday.

Prof. Hickman is at home once more.

According to Cleveland, Whitney & Co., the country is full of Anarchists since the Chicago convention. The platform, however, suits the common people and if that be anarchy, according to our form of government the people have a right to all they want of it. The fact that the discarded bosses, led by the blacked by the appointed aristocracy of the great country, are raising such a dismal howl, is the highest evidence that the Chicago platform is in the interest of the people.

The cry of "blue jeans" from the same source, elected Jim Williams Governor of Indiana twenty years ago; and will elect Bryan and Sewell next November if kept up. So, whoop her up, gentlemen, long and loud! The people cannot be frightened by such balderdash.

July 19, 1896. CHUX.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alternative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old People find it just exactly what they need. Price fifty cents per bottle at Crisp's Drug Store.

They boarded a freight train which reached this place Saturday at 4 A. M., where they remained until about noon, when they concluded to return home by stealing a ride on another freight. The boy in question, in securing a position on a brake beam while the train was in motion, was caught by a wheel, and his left foot completely crushed. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by all dealers.

From Goodland.

The refreshing rains of the past week have cheered the hearts of the despondent farmers who now that their corn crops are assured, are devoting their time to the discussion of the all-prevailing topic. "Who's it?" No doubt about it, Bryan is the nominee, is all that he should be, but were not also some of the defeated ones good and true men?

"Strange such a difference there should be 'Twixt twinedle and twinedle."

Mr. Webb did good work with his steam thrasher on Middle Fork last week. All were well pleased.

Mr. "Taffy" of Tolu, I meant a 3 mile square, or 9 square miles. Now, Mr. "Taffy," if you will look at your own mistakes you will have enough to do for instance, about Mr. J. H. Houston, as I think he is teaching school at Goodwater instead of Goodland.

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Fredericktown, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. For sale by all dealers.
